

ARVIND K GAUTAM

AI Transformation and Enterprise Consulting Leader
+65 98330031 | avi.gautam@gmail.com | linkedin.com/in/arvindkgautam | Singapore

PROFESSIONAL SUMMARY

I have spent 20+ years helping BFSI and Telco enterprises across ASEAN modernise their customer operations - first through contact center architecture, then through AI and CCaaS transformation. For the past several years, my focus has been on working directly with CIOs, COOs, and Chief Customer Officers to move AI from proof-of-concept into production, with a particular focus on regulated environments where governance and compliance matter as much as the technology.

I have led a 35+ person professional services organisation across ASEAN with full P&L ownership, delivered transformation programmes for 9 Tier-1 BFSI clients with 95%+ satisfaction, and was recognised as Top 1% Global Performer at Avaya in FY23.

CORE COMPETENCIES

AI and CX Advisory: AI strategy and use case design | AI governance and compliance | GenAI, Agentic AI and RAG architecture | CCaaS and contact center transformation | business process automation

Client and Consulting: C-suite advisory and workshops | consulting engagement management | partner development | account expansion | team leadership and mentoring

Delivery and Architecture: P&L ownership | multi-country programme management | enterprise architecture (TOGAF) | cloud migration (AWS, Azure, GCP) | pre-sales and solution design

TECHNOLOGY AND DOMAIN EXPERTISE

AI and Automation: Generative AI | Agentic AI | RAG | Conversational AI | Google CCAI | Cognigy | LLM integration | N8N | workflow automation

CX Platforms: Avaya | Genesys Cloud | Amazon Connect | CCaaS | IVR/IVA | omnichannel contact center

Cloud and Enterprise: AWS | Azure | GCP | Salesforce | TOGAF 9 | CISM

PROFESSIONAL EXPERIENCE

Regional Director, AI Advisory and CX Transformation | Enterprise Sales, BFSI ASEAN

SNUG Technologies Private Limited | Singapore | Apr 2025 - Present

Set up and grew the AI advisory and CCaaS practice across Singapore, Indonesia, Malaysia and Thailand, working with BFSI, Telco, and Government clients on customer operations transformation.

- Ran three AI transformation projects in Singapore and Indonesia - covering generative AI workflows, RAG-based knowledge assistants, and document processing automation - cutting manual work significantly across client operations
- Deployed process automation for a Tier-2 Indonesian insurer - cut employee processing time by 35% and improved claim closure rates by 15% using N8N-based automation
- Led the commercial launch of SnugDesk, an AI-enabled CCaaS platform - handled product advisory, go-to-market planning, and delivery oversight; have 10 enterprise deals in the pipeline
- Built SI partnerships with regional system integrators across Indonesia, Thailand, and Singapore; helped clients move from AI pilots into production with proper governance and compliance frameworks in place

Regional Lead, AI Advisory and CX Transformation Services | BFSI and Telco, ASEAN

Avaya | Singapore | Mar 2023 - Feb 2025

Ran the ASEAN professional services organisation - 35+ people across 5 countries - managing delivery, revenue, and client relationships for Tier-1 BFSI and Telco accounts.

- Recognised as Top 1% Global Performer - Avaya Circle of Excellence FY23 - grew team revenue realisation from 72% to 112% and hit 120%+ quota average across the portfolio
- Grew practice revenue by 23% year-on-year and maintained the highest client retention rate in Asia-Pacific, across a multi-million dollar consulting portfolio in 5 markets
- Delivered AI contact center transformation for Tier-1 banks in Singapore - GenAI agent assist cut average handle time by 20% and new agent training time by 30%; a RAG-based knowledge tool cut search time by 40%
- Worked closely with CIOs and operations heads in banks and telcos to build AI adoption plans, governance frameworks, and deployment roadmaps; cut time-to-value by 30% and maintained 95%+ satisfaction across all accounts; mentored 5 team members, 3 of whom were promoted

Professional Services Lead, CX Transformation and AI Advisory | Enterprise Sales and Delivery

Avaya | Singapore | Apr 2021 - Mar 2023

- Grew practice bookings to 115% of target through client development and competitive wins across BFSI and Telco accounts in ASEAN

- Managed long-cycle transformation projects (6 to 14 months) covering cloud migration, CCaaS upgrades, and AI-led CX changes for Tier-1 financial institutions - grew customer lifetime value by 40%

Professional Services Executive, AI-Powered CX and Cloud Transformation | BFSI and Telco

Avaya | Singapore | Oct 2018 - Apr 2021

- Hit 155% of revenue targets across Professional Services, Support, and Managed Services - led cloud migration projects for Tier-1 banks across multiple ASEAN markets
- Shifted client engagement from reactive support to a consulting-led model, which grew customer lifetime value by 40%

Enterprise Pre-Sales Solution Architect, CCaaS and CX

Avaya | Singapore | Aug 2016 - Oct 2018

- Designed multi-cloud contact center solutions with NLP chatbot integration - cut response times by 40% for major enterprise accounts
- Led pre-sales for CCaaS and UCaaS deals across Tier-1 ASEAN enterprises; presented Bot Federation architecture at GITEX Dubai 2018. Key accounts: Singtel, OCBC, AIS Thailand, BNI Indonesia

APS Consultant and Solution Architect, CX and Contact Center | Enterprise Architecture, BFSI

Avaya | Singapore and India | Sep 2009 - Aug 2016

Seven years of hands-on contact center architecture and delivery across Fortune 500 clients in APAC, NAR, and EMEA - covering IVR/CTI, NLP chatbots, and automation. Led distributed teams of 10+ engineers. Awards: Customer Excellence Award, Developer of the Year.

Earlier: Genesys Consultant (2009) | Sr. Software Engineer, AGC Networks (2008-2009) | CTI/IVR Engineer (2005-2008)

SELECTED PROJECTS

- Google CCAI Virtual Agent - built conversational self-service for a major ASEAN bank; reduced inbound call volume by ~30%
- GenAI Agent Assist and Call Summarization - real-time AI assist for a Tier-1 Singapore bank; cut after-call work by ~40% and new agent ramp time by 30%
- RAG Knowledge Management - built a retrieval-based knowledge tool for a BFSI contact center; agents found answers ~40% faster
- Multi-Country Cloud and AI Migration - ran a 5-country programme for a global bank, covering CCaaS migration and AI-powered quality management
- Claims Automation - N8N-based process automation for an Indonesian insurer; cut processing time by ~35% and improved claim closure by ~15%
