PROFESSIONAL SUMMARY

Senior enterprise sales and solution consulting leader with **15+ years** in CX, CCaaS, CPaaS, SaaS, cloud, and AI. **Top 1% Global Performer at Avaya FY23** with **120%+ quota** year over year. I sell enterprise tech and AI transformation to large and mid-market clients across ASEAN. I came up through contact center engineering and solution architecture, then moved into consultative sales. That mix lets me run an architecture conversation with a CTO and a value conversation with a CIO in the same meeting.

Run multithreaded sales cycles of 6 to 14 months using MEDDIC across BFSI, Insurance, Telecom, and Public Sector. Anchor clients include Standard Chartered, OCBC, UOB, Singtel, AIS, Manulife, and Prudential, with **led account ownership on BNI Indonesia**. **Three years line-managing a regional AE team carrying team quota** across ASEAN, alongside direct ownership of strategic accounts. Built SI and channel partner networks across Singapore, Indonesia, Thailand, Malaysia, Philippines, and Vietnam. Stay hands-on with OpenAI API, RAG, agentic workflows, business messaging platforms, and N8N automation.
